

## VQF Quality Management System CD Standards for Continuing Registration Systems, Policies, Procedures and Forms

### Included in our CD you will find:

The **VQF Quality Management System** - this 80+ page document is the Primary File and comprehensively steps through key sections of the legislative instruments. The primary file then refers (via links) to over 100 (120 for initial registration) policies, procedures, forms, templates, registers. All files are easily customised and were developed in MS Word, Excel, PowerPoint.

### Three associated folders are included:

1. **RTO Policies, Procedures and Forms** which contains all the files which have been referred to within the QMS
2. **Professional Development** which includes a PowerPoint presentation developed for the VET Quality Framework – Legislative Instruments and Risk Management Brief – to be used for professional development. Also a mapping document is provided which maps from AQTF to SNRs.
3. **Audit Toolbox** which includes a word version of a comprehensive internal audit template constructed to the VET Quality Framework. (this is optional and provided at an extra cost)

### There are over 100 documents provided in the Continuing Registration CD.

For those clients preparing for registration, the CD includes all documents provided in the Continuing Registration CD plus additional files to support preparation for initial registration as a registered training organisation. The Initial Registration CD contains over 120 documents.
